FUJI OIL HOLDINGS INC.

Sustainable cocoa bean procurement

Fuji Oil Group Holdings Inc. (President & CEO: Hiroshi Shimizu) will support cocoa producers in West Africa as a group, including Living Income Differential (LID), for cocoa beans, and will continue to procure cocoa beans sustainably in the future. We strongly promote sustainable procurement to eliminate child labor and prevent deforestation more than ever.

* In June of this year, the Fuji Oil Group announced a sustainable procurement commitment to eliminate child labor and prevent deforestation.
