

Palm Oil and Cocoa Sourcing Policy Session

~Promoting Sustainable Production and Consumption~

July 20, 2020

Agenda

15 : 00~15 : 10

ESG Management and Our Sourcing Policy

15 : 10~15:35

**Sustainable Procurement Commitment of Palm Oil
(Discussion)**

15 : 35~16:00

**Sustainable Procurement Commitment of Cacao
(Discussion)**

16 : 00~16 : 15 **Questions and Answers**

Presenters

Presenter

Director &
Senior Executive Officer
Chief "ESG" Officer

Hiroshi SHINANO

Sustainable Procurement Commitment

Initiatives for Curbing Climate Change, Biodiversity, and Human Rights Issues

Mid-to-long term target		2025	2030	Final Goal
Palm	Deforestation prevention	TTP 75%	TTP 100%	NDPE
	Exploitation prevention	Improved working environment 100% (Major subsidiary)	Improved working environment (all direct supplier)	
Cacao	Child labor Elimination	Zero WFCL	Zero Child labor	Eliminate child labor, eradicate deforestation
	Reforestation	500,000 tree planting	1 million trees planting	

The Palm Oil Supply Chain

Palm: Focused Prioritises

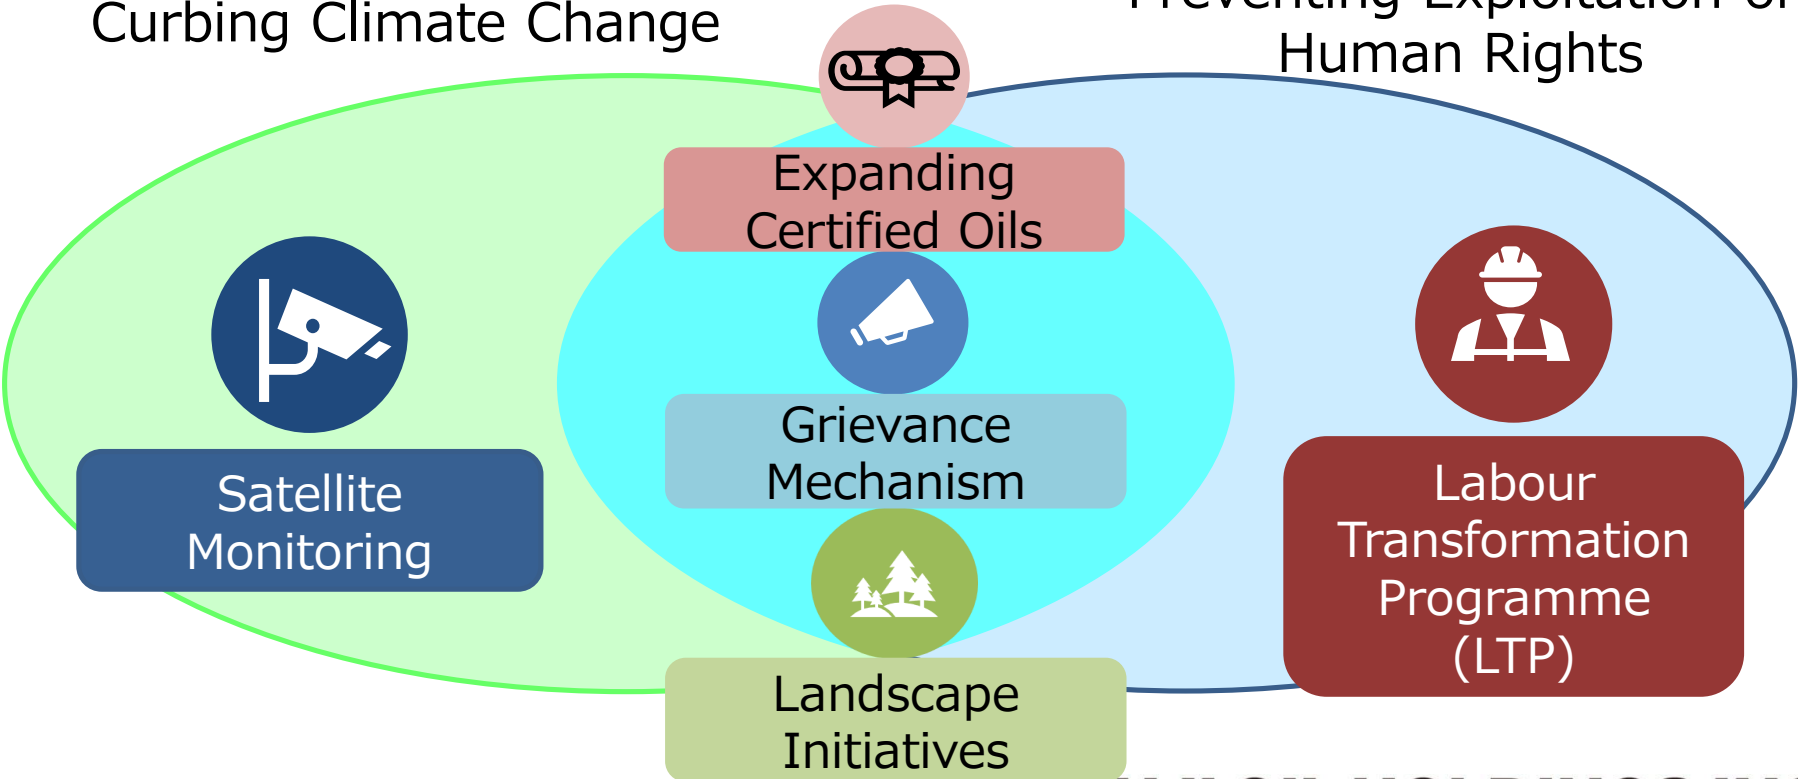

- **For Climate Change**
 - No deforestation and peatland development in supply chain within palm concessions
- **For Human Rights**
 - No exploitation of labor workers

	<div>5 methodologies to achieve NDPE (No Deforestation, No Peat ,No Exploitation) <small>Main Procurement Source: 60% from Malaysia, 40% from Indonesia</small></div>
1	Satellite Monitoring
2	Labour Transformation Programme (LTP)
3	Landscape Initiatives (Aceh, Indonesia)
4	Expanding Certified Oils
5	Grievance Mechanism

NDPE Achievement Policy

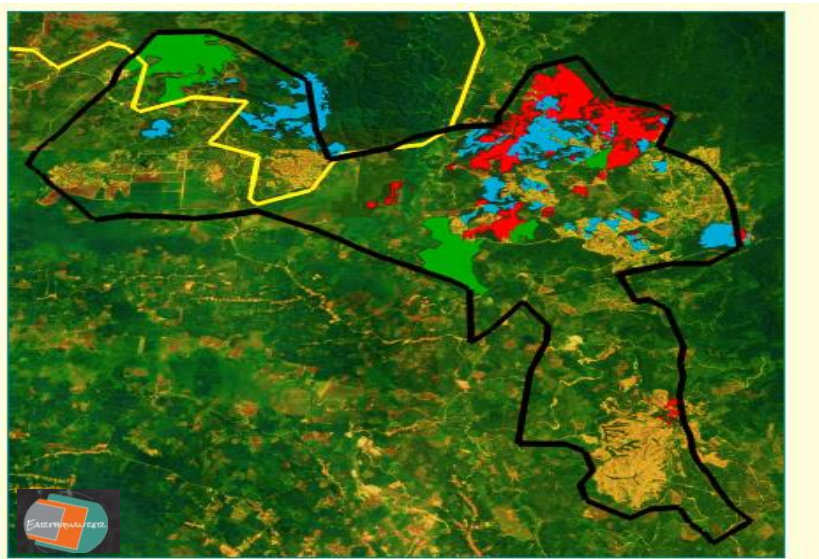

Curbing Climate Change

Preventing Exploitation of Human Rights

1. Satellite Monitoring

Satellite Monitoring of Deforestation within Suppliers' Concessions

To reduce deforestation risks in Fuji Oil's palm supply chain, Fuji Oil has partnered with an International NGO to monitor suppliers' concessions* using optical satellite imagery to capture deforestation alerts.

The deforestation alerts will be provided monthly and the monitoring scope will depend on availability of Traceability to Plantation (TTP) data.

The images are produced with resolution of 3 to 30 meters

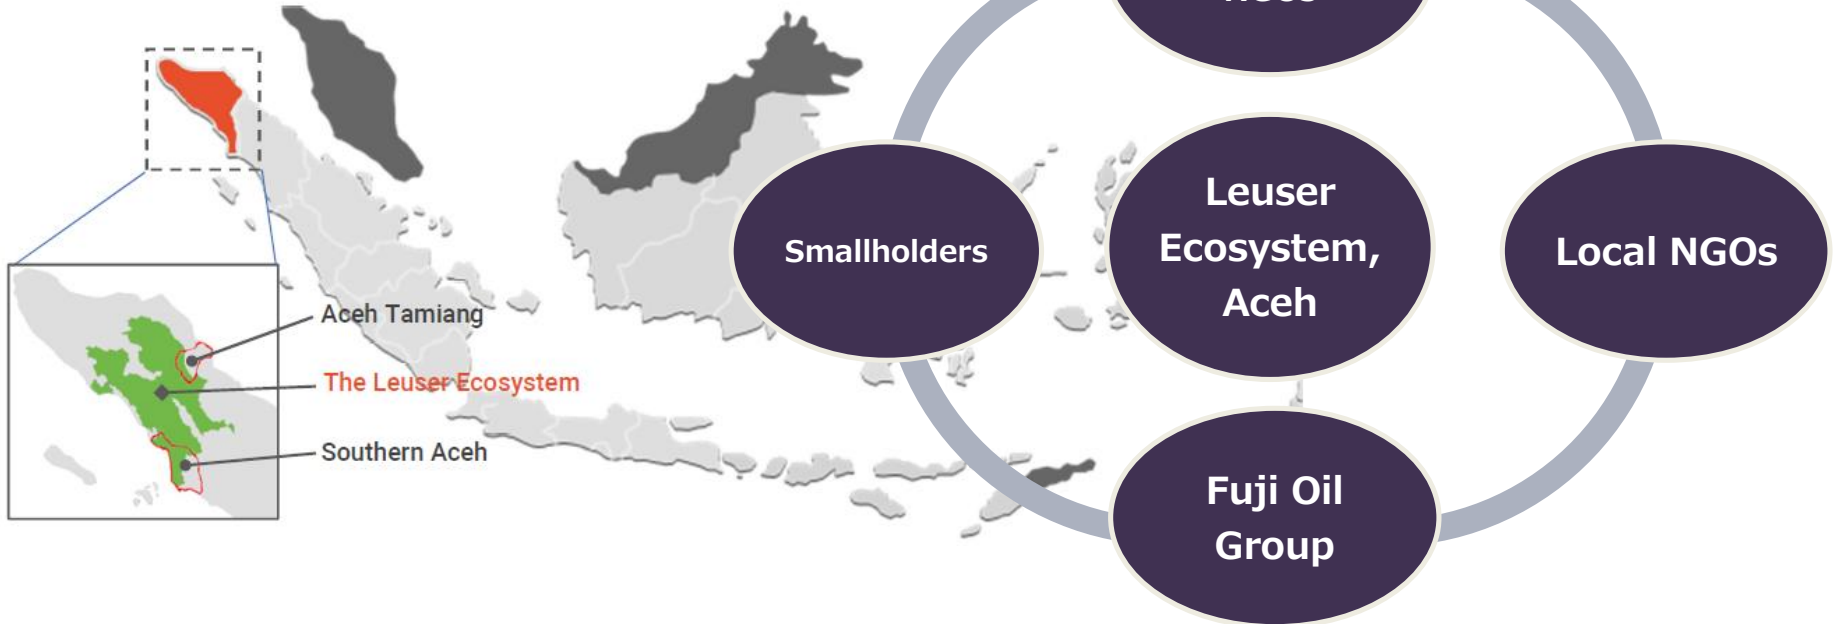

2. Labour Transformation Programme (LTP)

1. One on one supplier engagement program
2. To build capacity in addressing identified labor issue as shown below:
 - i. Freedom of movement
 - ii. Employment contract
 - iii. Ethical recruitment
 - iv. Grievance mechanism
 - v. Wages and working hours
 - vi. Freedom of association
 - vii. Safety and health
 - viii. Workers' accommodation

3. Landscape Initiatives in Indonesia

APT in Aceh, Indonesia since 2018

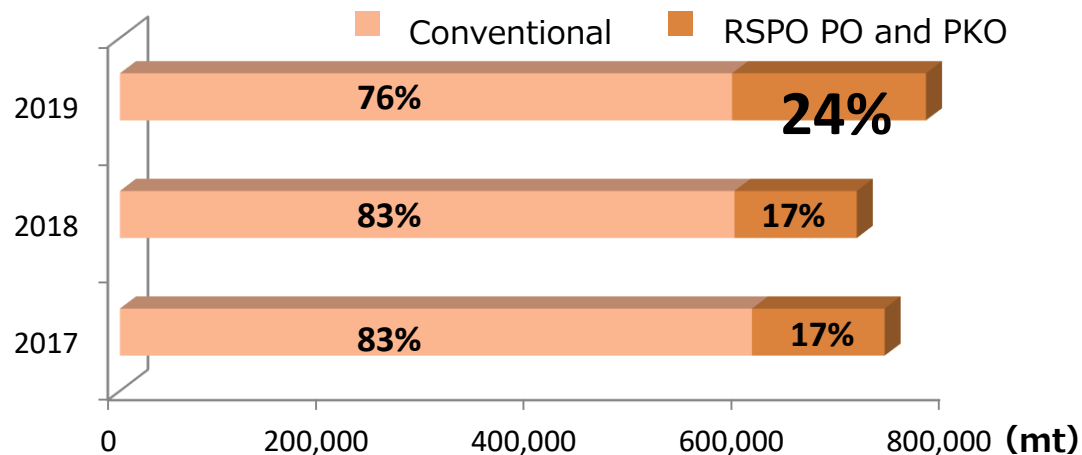

Area Prioritized Transformation

Since 2018, Fuji Oil has joined the multi-stakeholder landscape initiative, APT, to collaborate with local and international NGOs, suppliers and smallholders in tackling deforestation, exploitation, land tenure and poverty issues.

4. Expanding Certified Oil

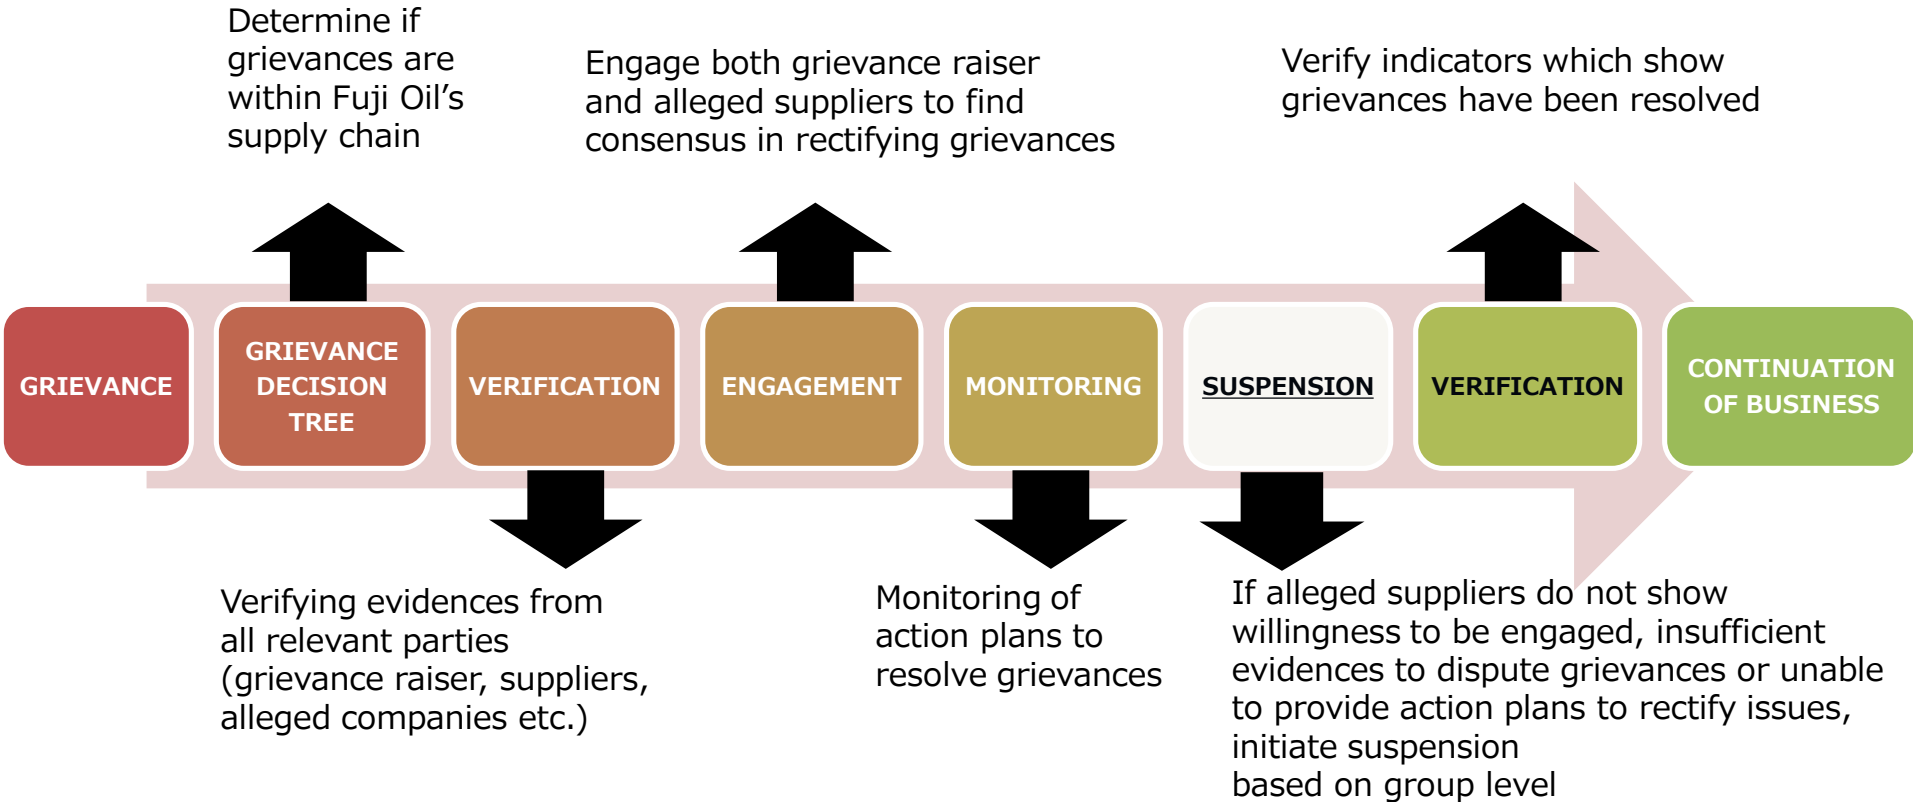

RSPO Certified Versus Total Purchased Palm and Kernel 2017-2019

UNIFUJI

- A joint venture refinery with local plantation company (United Plantations)in Malaysia
- Establishing a supply system in line with the spread of RSPO certified oil
- The increase of RSPO % in 2019 due to UNIFUJI's contributions

5. Grievance Mechanism with Suspend and Engage Protocol

5. Status of Grievance List

*As of June 31, 2020

15 : 35~16:00

**Sustainable Procurement Commitment of Cacao
(Discussion)**

Hiroshi SHINANO

16 : 00~16 : 15 **Questions and Answers**

The Cocoa Supply Chain

Cacao: Focused Prioritises

- **Child Labor Elimination**

- SDG Alliance 8.7 of ending all child labor by 2025 is said to be difficult to achieve
- Child Labor remains a persistent challenge in Ghana and the Ivory Coast
- 2.1 million children still work in cocoa in Ivory Coast and Ghana
- Access to quality education, family nutrition, and household income all impact child livelihood

- **Reforestation**

- Ivory Coast lost 46% of its forest cover between 1986 and 2015
- Thousands of farms now operate in protected forest preserves
- Loss of biodiversity and long term concerns around impact on climate change

Blommer Chocolate's sustainable origins

SUSTAINABLE ORIGINS

HEALTH CARE

7 Maternity wards and health
centers are covering about
73 communities and approx.
20,000 families

205,331 Vaccinations

120,938 Medical consultations

3,984 Baby
deliveries

300 Ambulance evacuations

11,500 Mosquito nets
distributed

Approx. **750**
households have access to clean
drinking water from hydraulic pumps

EDUCATION

12 Primary schools and
child care centers with
60 classrooms
covering approx. **50**
communities

7,721 Children have attended
Blommer facilitated schools

On average **46%** of enrolled
children are girls

16,892 Schools kits distributed

CHILD PROTECTION

Child Labor Monitoring and
Remediation Systems (CLMRS)
in place at **97%** of the network
farmer groups

Child Protection Committees
established in **65** villages

WOMEN'S EMPOWERMENT

37 Literacy
centers created **1,477** Women
students

213 Village Savings and Loan
Associations (VSLA) established
with **5,791** members
across **78**
villages

92% of members are women
\$501,668 In cumulative
savings

1,015

Women trained and engaged in
income generating activities

Introduction of
livestock and
food crops

TRACEABILITY

79%
Farms GPS
mapped

PREMIUMS

\$7,530,128
Paid in farmer and coop premium
during the 18/19 season

PRODUCTION IMPROVEMENTS

4,876,250
High yielding cocoa
seedlings provided to farmers

Approx. **59%** of farmers
benefitted from Good Agricultural
Practices (GAP) training

REFORESTATION

560,793
Forest and fruit trees distributed
across approx. **28,000** ha

Forest Initiative

February 2020

Initiatives for Child Labor Elimination

Launch Sustainable Program in Ghana, previously implemented in Ecuador and Côte d'Ivoire

Map supply chains in Côte d'Ivoire and Ghana

Establish Child Labor Monitoring and Remediation Systems (CLMRS) in 100% of Côte d'Ivoire and Ghana Supply Chains

Partner with the Jacobs Foundation in the CLEF and ELAN programs

CLMRS (Child Labor Monitoring and Remediation Systems)

From Annual Report of ICI

CLMRS
Results in 2019

CLEF/ELAN Program

CLEF

Expected results (2030)

Target capitalization of CHF 110 M

2 M children in cocoa communities reached with quality education

10 k learning schools ensure learning across the entire cocoa belt

2500 classrooms built ensure access to education in most vulnerable communities

5 M farmers reached with effective child learning/child rights messages

3 rigorous studies, including 1 RCT investigating the links between quality education, poverty, and child labour

National policy on quality education

Accountability framework using bi-annual surveys to monitor progress against quality education/child labour targets

ELAN

Expected results (2025)

Target capitalization of CHF 40 M

-1.3 million children aged 0–5 years reached with nurturing care interventions

200 ECD relevant infrastructures are renovated and equipped to improve the quality of child-friendly spaces.

All projects follow clear guidelines and a minimum package of activities.

Local scientific on the early years is generated.
