

Fuji Oil Group Grievance List

Updated: 20th December 2021

This is a list of grievances which have been registered by Fuji Oil Group in accordance with Fuji Oil Grievance procedure based on Fuji Oil Group Responsible Palm Oil Sourcing Policy. The next update of this list will be in March 2022.

No.	Reference No.	Parent Company	Supply linkage to Parent Company	Grievance Cases	Grievance Raiser	Date Received	Issues	Alleged upstream suppliers	Supply Linkage to Alleged Upstream Suppliers	Category	Progress	Status
1	516A-TPOL1	Agro Group	Yes, indirectly	LABOUR RIGHTS VIOLATION IN THE GLOBAL SUPPLY CHAIN OF THE PALM OIL INDUSTRY	Transnational Palm Oil Labour Solidarity	20/12/2020	Workers' complaints: 1) wages paid below minimum wages, 2) Embezzlement of BPJS (employment insurance) monthly fee deducted from wages, 3) no paid leaves, 4) annual religious allowance paid in instalment without workers' consent, 5) poor housing facilities, 6) prolonged casual status without being promoted to become permanent workers, 7) poor health and safety protection without proper and effective PPE 8) child labor, 9) termination without compensation	Kutai Agro Lestari	Yes, indirect supplier	Exploitation	Direct supplier has contacted PT KAL and they immediately and strongly denied the allegations. On the allegation about BPJS (worker insurance), PT KAL admitted that on one occasion there was a payment delay for the insurance premium due to cashflow issue, but at that time the company was responsible by covering the medical bill for the worker. Direct supplier had a discussion with TPOLS and a number of labour unions under TPOPS coordination to learn more about the allegations and is asking for evidence that can be used for further engagement Jan-21: Our direct supplier has been proactively supporting efforts in developing responsible labour practices in its supply chain. Here are some efforts in East Kalimantan: https://bit.ly/3ce850R	Monitoring
2	7A-ME22	Agro Sarimas Group	Yes, indirectly	Rapid Response 22	Mighty Earth	6/12/2019	between June 23, 2019 and November 21, 2019 a total of 136 hectares of forest were cleared in the PT Agro Sarimas Indonesia concession.	Agro Sarimas Indonesia	Yes, indirect supplier	Deforestation	Sarimas (PT ASI) has stated to our direct supplier that they no longer had plans to open or develop land and the location of the alleged deforestation is outside PT ASI concession. It was a fire incident in which PT ASI has an official response here: http://bit.ly/2Pfatk7 and overlay map here http://bit.ly/2Yck8fE	Invalid
3	10A-ME24	Agrosurubur Group	Yes, indirectly	Rapid Response 24	Mighty Earth	31/1/2020	~102ha, 22 Aug 2019 to 24 Dec 2019	Karya Dewi Putra	No	Deforestation	The coordinate mentioned in the report (-1.359,112.811 and -1.359. 112.817) located outside of PT KDP concession. From 108 ha of land clearing reported, 47 ha is located inside of HGU PT KDP. However, this is for the road corridor by other company which open up access for encroachment by local community. Meanwhile, another 15 ha located inside izin Likasi PT KDP but outside of HGU. The clearing is for the same corridor for the road by the company. The encroachment has been reported to the police with report number 023/SSL-RO/VII/2019 and the encroachment has stopped. Our direct supplier has a meeting with PT KDP and they have shown the evidence of its overlay map, the police report and photos of the encroachment by the local people. As of May 2020, Mighty Earth had a meeting with our direct supplier to share information on the findings of the case. ME requested for copies documents to be shared. KDP informed our direct supplier that the documents is confidential and sensitive.	Monitoring
4	18A-ME15	Anglo-Eastern Plantations/Genton International Ltd	Yes, indirectly	Rapid Response 15	Mighty Earth	1/5/2019	a total of 40 hectares of forest were cleared between April 1, 2019 and May 2, 2019 in the PT Kahayan Agro Plantation concession.	Kahayan Agro Plantation	No	Deforestation	AEP updated our direct supplier that they have published commitment to no new development on HCS, HCV and Peat in their New Sustainability Policy. https://www.angloeastern.co.uk/~media/Files/A/Anglo-Eastern/reports-and-documents/Sustainability%20Policy%20AEP.pdf Regarding the alleged areas, KAP has already conducted HCSA assessment and has conveyed the directions from HCSA to the affected stakeholders in the area, however the plasma smallholders and the local government will not accept any relocation and the Stop Work Order for the alleged area. Our direct supplier is working with KAP and HCSA committee to resolve this issue. Due to Covid-19, there is a delay in setting up a meeting to convince the communities in conserving the HCS area. KAP case is still being reviewed by HCSA organisation on the next step of actions. Sep-21: As the pandemic situation continued to happen, the meeting between HCSA and PT KAP agreed that the site visit was cancelled and no longer necessary. However, PT KAP has committed to conserve the 150ha disputed area complying with HCSA's decision and the HCSA secretariat has agreed to close the case. Direct supplier has also enclosed evidence of communication between HCSA secretariat and PT KAP.	Closed
5	18A-ME25	Anglo-Eastern Plantations/Genton International Ltd	Yes, indirectly	Rapid Response 25	Mighty Earth	1/3/2020	Between 13 Jan 2020 to 11 Feb 2020, 9 ha of forest were cleared.	Kahayan Agro Plantation	No	Deforestation	AEP updated our direct supplier that they have published commitment to no new development on HCS, HCV and Peat in their New Sustainability Policy. https://www.angloeastern.co.uk/~media/Files/A/Anglo-Eastern/reports-and-documents/Sustainability%20Policy%20AEP.pdf Regarding the alleged areas, KAP has already conducted HCSA assessment and has conveyed the directions from HCSA to the affected stakeholders in the area, however the plasma smallholders and the local government will not accept any relocation and the Stop Work Order for the alleged area. Our direct supplier is working with KAP and HCSA committee to resolve this issue. Due to Covid-19, there is a delay in setting up a meeting to convince the communities in conserving the HCS area. KAP case is still being reviewed by HCSA organisation on the next step of actions. Sep-21: As the pandemic situation continued to happen, the meeting between HCSA and PT KAP agreed that he site visit was cancelled and no longer necessary. However, PT KAP has committed to conserve the 150ha disputed area complying with HCSA's decision and the HCSA secretariat has agreed to close the case. Direct supplier has also enclosed evidence of communication between HCSA secretariat and PT KAP.	Closed
6	18A-ME27	Anglo-Eastern Plantations/Genton International Ltd	Yes, indirectly	Rapid Response 27	Mighty Earth	9/5/2020	March 16 - April 15 2020, 10.30ha	Kahayan Agro Plantation	No	Deforestation	AEP updated our direct supplier that they have published commitment to no new development on HCS, HCV and Peat in their New Sustainability Policy. https://www.angloeastern.co.uk/~media/Files/A/Anglo-Eastern/reports-and-documents/Sustainability%20Policy%20AEP.pdf Regarding the alleged areas, KAP has already conducted HCSA assessment and has conveyed the directions from HCSA to the affected stakeholders in the area, however the plasma smallholders and the local government will not accept any relocation and the Stop Work Order for the alleged area. 11	23A-E0F1	Asian Agri	Yes, indirectly	Enough is Enough	Eyes on the Forest	8/6/2018	Soucing of FFB from illegal plantations from Tesso Nilo National Park and Bukit Tiga Puluh National Park	Mitra Unggul Pusaka-Segati	Yes, indirect supplier	Illegal Sourcing	Fuji Oil has been engaging with our direct suppliers regarding Inti Indowawit Subur and Mitra Unggul Pusaka Segati. Both Indosawit Subur, Mitra Unggul Pusaka Segati are a subsidiary of Asian Agri. Asian Agri is committed to tracing all of their FFB sources and has developed a sourcing policy for high risk suppliers. Asian Agri is going to implement ART and landscape approach. Asian Agri achieved 100% FFB traceability to plantation since 2017. Also, they enforced their sustainability policy to their suppliers. https://www.asianagri.com/images/pdf/2018/grievance/Letter%20to%20Yes%20on%20The%20Forest%20-%20WVWF.pdf We will close these grievances until further allegations. 12	20A-RAN10	Asian Agri	Yes, indirectly	Community Struggles for Land Rights and Livelihoods in Singkil-Bengkung region	Rainforest Action Network	4/12/2019	RAN - Analysis conducted by LBH Banda Aceh identified two cases of land conflicts between local communities and PT Delima Makmur.	Delima Makmur	Yes, indirect supplier	FPIC	As according to our direct supplier, TTP is 100%, monitoring will be conducted. A. Telaga Bakti Village: The land disputes was between two group of smallholders on the 200 ha land which claimed to be in PT Delima Makmur concession. The court decided the case won by a group of smallholder led by Paksa Taringan Cs. The disputed land identified is not in PT Delima Makmur. https://putusan3.mahkamahagung.go.id/direktori/putusan/19fc350dd7755964ab0e81c05f0707.html . B. 2nd land conflict: Aceh Police District was approached by BPN Aceh for installing plank and banner in the disputed area. Based on the investigation by the Aceh High Prosecutor's Office (Kejaksaan Tinggi Aceh) has dropped the case in a letter dated 24 June 2020 as they found there is no criminal case. We were only informed on the later by the DM towards the end of 2020 and evidence of the letter has been shown to us but they are not allow for it to be shared with external parties. Hence, the case against PT DM and the directors has been resolved legally. Fuji will be monitoring this case closely	Monitoring

14	26A-ECO1	Astra Agro Lestari	Yes, indirectly	Indonesian farmers pay the price for politics in palm oil	Eco Business	20/5/2020	A number of farmers in Indonesia's Central Sulawesi province being driven off their land by palm oil companies, often with the support of the local police and officials	PT Mamuang	No	FPIC	Our direct supplier has reached out to PT Astra Agro Lestari (PT AAL) for clarification. PT AAL have informed that the issue raised in the article has been closed through legal process by authorities. This case involved crop theft and unsubstantiated land claims. The court's decision on this case can be accessed through Indonesia official Supreme Court website on the following link: https://putusan3.mahkamahagung.go.id/direktori/putusan/fe9b1b8fa68da311439393951bafad17.html Following the engagement with PT AAL and considering that a final court decision has been made, this matter has been resolved.	Closed
15	28A-RAN2	Astra Agro Lestari	Yes, indirectly	PT Indo Sawit Perkasa caught destroying the lowland rainforests of Singkil-Bengkung	Rainforest Action Network	31-Mar-17	High risk palm oil mills that may be driving the destruction of the Singkil-Bengkung forests and peatlands	Perkebunan Lembah Bhakti I	No	Deforestation	Engaged direct suppliers and confirmed PLB is not procuring from Indo Sawit Perkasa. However engagement for full TTP is on-going, as of now TTP is 80%. Indo Sawit Perkasa is suspended in Fuji Oil's supply chain. ISP has committed to moratorium and recovery in their statement in October 2020: https://goldenagri.com.sg/sustainability-dashboard/files/file_docs/X9djkmitmenptispokt2020.pdf Sep-21: Perkebunan Lembah Bhakti I & II have reached 100% TTP https://www.astra-agro.co.id/en/traceability-4/ . Our direct supplier has stated that they are no longer buying from PT Laot Bangko and PT Indo Sawit Perkasa which are deforesting inside the Leuser Ecosystem.	Closed
16	542A-ME33	Astra International Tbk	Yes, indirectly (palm)	Rapid Response 33	Mighty Earth	2/5/2021	Between January 2016 and December 2018, there were ~60 hectares of tree cover loss within the Martabe Mine area of PT Agincourt Resources Tbk. Between January 2019 and December 2020, there were ~41 hectares of tree cover loss within the Martabe Mine area of PT Agincourt Resources Tbk	Agincourt Resources Tbk	No	Deforestation	Fuji has engaged our direct suppliers on this gold mining case and the responses from our direct suppliers are consistent in which PT Astra Agro Lestari and PT Agincourt Resources are two different companies operating within two different kinds of industries. Although they are under the same holding group, but they are under different legal entities. Each legal entity maintains their own independence in running its operations in accordance with the applicable Law of Indonesia No. 20/2007 concerning Limited Liability Company. Due to this, the leverage on the gold mining company agincourt resources is limited.	Invalid
17	34B-ME16	Bakrie Sumatera Plantations	Yes, indirectly	Rapid Response 16	Mighty Earth	8/6/2019	between April 17, 2019 and May 27, 2019 a total of 115 hectares of forest were cleared and 40 hectares were prepared for clearance in the PT Mentohi Mitra Lestari concession	Mentohi Mitra Lestari	No	Deforestation	PT. Bakrie Sumatera Plantation has informed our direct suppliers that PT Mentohi Mitra Lestari is not part of the Bakrie Group. PT Bakrie Sumatera Plantations Tbk issued a public statement stating "PT Mentohi Mitra Lestari is no longer a part of PT Bakrie Sumatera Plantations Tbk or Bakrie Group since 2017". See BSP statement in its website here https://www.bakriesumatera.com/index.php/id/hubungan-investor/informasi-publik/siaran-pers	Invalid
18	34B-ME20	Bakrie Sumatera Plantations	Yes, indirectly	Rapid Response 20	Mighty Earth	11/10/2019	~ 188ha August 15 – September 15, 2019	Mentohi Mitra Lestari	No	Deforestation	PT. Bakrie Sumatera Plantation has informed our direct suppliers that PT Mentohi Mitra Lestari is not part of the Bakrie Group. PT Bakrie Sumatera Plantations Tbk issued a public statement stating "PT Mentohi Mitra Lestari is no longer a part of PT Bakrie Sumatera Plantations Tbk or Bakrie Group since 2017". See BSP statement in its website here https://www.bakriesumatera.com/index.php/id/hubungan-investor/informasi-publik/siaran-pers	Invalid
19	34B-ME22	Bakrie Sumatera Plantations	Yes, indirectly	Rapid Response 22	Mighty Earth	6/12/2019	~75ha October 15- November 14, 2019	Mentohi Mitra Lestari	No	Deforestation	PT. Bakrie Sumatera Plantation has informed our direct suppliers that PT Mentohi Mitra Lestari is not part of the Bakrie Group. PT Bakrie Sumatera Plantations Tbk issued a public statement stating "PT Mentohi Mitra Lestari is no longer a part of PT Bakrie Sumatera Plantations Tbk or Bakrie Group since 2017". See BSP statement in its website here https://www.bakriesumatera.com/index.php/id/hubungan-investor/informasi-publik/siaran-pers	Invalid
20	508B-RAN17	Beurata Subur Persada	Yes, indirectly	Major Brands and Banks Complicit in the Production of Conflict Palm Oil on Stolen Community Lands in Indonesia	Rainforest Action Network	21/8/2020	Accepting palm oil fruit from PT. Dua Perkasa Lestari (DPL) which is alleged of land grabbing	Beurata Subur Persada	Yes, indirect supplier	FPIC	Our direct supplier has engaged with BSP and DPL since 2016/2017. A verification visit in 2017 was conducted for action plan http://bit.ly/2Kpq2tj Supplier has also urged for moratorium and their monitoring shows there's been no further deforestation/peat clearance since 2019. And this has been confirmed by their sustainability partner. On a positive note, through engaging BSP, DPL management has agreed to issue official statement for re-moratorium. See official moratorium statement here https://bit.ly/2Hr1du In regards to this alleged land grabbing case, direct supplier is conducting further investigations As of Oct 2020, BSP has achieved 98.4% TTP and on track to achieve 100% TTP. Dec-21 : PT BSP has achieved 100% TTP as of August 2021. Fuji will continue monitoring both the deforestation and social issues raised.	Monitoring
21	494B-ME29(A)	Bukit Berlian Plantation Group	No	Rapid Response 29	Mighty Earth	3/7/2020	6ha, May 15, 2020- June 14, 2020	Ginang Fohu Plantation	No	Deforestation	Internal monitoring has verified that there are no deforestation within concession area.	Closed
22	494B-ME29(B)	Bukit Berlian Plantation Group	No	Rapid Response 29	Mighty Earth	3/7/2020	4ha, May 15, 2020- June 14, 2020	Ginang Fohu Plantation	No	Deforestation	Internal monitoring has verified that there are no deforestation within concession area.	Closed
23	48B-RAN9	Bumi Daya Agrotamas	Yes, indirectly	Major Brands Again Caught Sourcing Deforestation-Linked Palm Oil	Rainforest Action Network	1/11/2019	PT. Laot Bangko has continued to destroy forests while selling oil palm fruit from its non-compliant palm oil plantation to the global market via Bumi Daya Agrotamas	Bumi Daya Agrotamas	Yes, indirect supplier	Illegal Sourcing	An action plan has been agreed between our direct supplier and BDA. It will include traceability to plantation, stop purchase from FFB suppliers who are unwilling to sign Agreement Letter and conduct socialization of FFB suppliers on high risk/protected areas. The Agreement Letter with the FFB Suppliers will state that suppliers will conduct Traceability to Plantation, and that FFB received should come from areas with legal land ownership or equal rights and not be from high risk/protected areas and or from exploitation of workers. The action plan will be monitor by our direct supplier and Fuji Oil. 1. PT BDA have developed and completed SOP of Traceability to Plantation. 2. PT BDA conducted socialization of high risk area and TTP program as well as commitment with 60% of FFB suppliers and the remaining is ongoing. 3. PT BDA continue its efforts to socialize and make commitments from all the FFB suppliers, and there is no objection from the suppliers. 4. PT BDA have reported 100% TTP. 5. Field verification is planned to be carried out in August 2021. Overall, PT BDA has completed 80% of the action plan. Overall, PT BDA is still carrying out its action plan, but due to the current state of the COVID-19 pandemic, the implementation of the action plan was affected and caused some delay in the progress of implementation. Dec-21: 1. PT BDA have achieved 100%. The socialization of high-risk areas and 2. TTP program have been completed. All of the suppliers have participated and signed a commitment letter. 3. During the field verification, our direct supplier has also held capacity building session with BDA management to increase understanding of NDPE.	Closed
24	54B-ME23	Bumitama Agri	Yes, indirectly	Rapid Response 23	Mighty Earth	8/1/2020	between September 4, 2019 and December 24, 2019 a total of 129 hectares of forest were cleared in the PT Andalan Sukses Makmur concession	Andalan Sukses Makmur	No	Deforestation	Our direct supplier has conducted ground checking and verified that this is not a result of land clearing but a fire scar from forest fires that occurred in the area in September 2019. These areas which are owned by the local community and thus excluded from the management of the company are a part of the set-aside areas of 2,500 hectares (about 36% of PT ASMA's permit) that were excluded from the company plantation development plans and were set aside for conservation based on the rapid HCS assessment and peat delineation study conducted in April 2014 (refer to 12 September 2014. Announcement: http://ir.bumitamaagri.com/static-files/5ce66171-9006-449f-9189-b206ca3a0c7). Upon reporting by the patrolling team, the fires were tackled by our supplier's fire-response personnel. Two teams of 24 men were dispatched to the site, equipped with pumps and water hoses to douse the flames. However, the forest terrain, lack of access roads and peat soil made it very difficult to extinguish. Once put out, both incidents were recorded and reported accordingly to relevant local authorities, as well as to the RSPO under the hotspot monitoring scheme. Jan-20: Bumitama provided further clarification to our direct supplier after on the ground verification: http://bit.ly/BumitamaClarificationToGAR	Closed
25	50B-ME27	Bumitama Agri	Yes, indirectly	Rapid Response 27	Mighty Earth	9/5/2020	March 16 - April 15 2020, 20.90ha	Damai Agro Sejahtera	No	Deforestation	As according to our direct supplier, the allegation is incorrect. Both PT DAS and direct supplier have conducted spatial analysis and didn't find any land clearing within that period. See here https://bit.ly/3cVv01U . our satellite monitoring partner has verified that there are no deforestation within concession area in 2021.	Invalid

Updated: 20th December 2021

26	50B-ME22	Bumitama Agri	Yes, indirectly	Rapid Response 22	Mighty Earth	6/12/2019	between September 6, 2019 and November 13, 2019 a total of 948 hectares of peat forest were cleared in the PT Damai Agro Sejahtera concession	Damai Agro Sejahtera	No	Deforestation	Bumitama sent the following clarification to our direct supplier: The alleged deforestation was not committed by PT DAS PT DAS patrols recorded increasing illegal logging activity in the conservation area prior to the incident. They also suspect this is the main cause of the fires in PT DAS. The illegal activity has been reported to the police. Bumitama's official response can be found here: http://bit.ly/2PK6Ea9 Bumitama has adopted NDPE commitment and is a member of the RSPO. Our direct supplier is waiting for further clarifications. our satellite monitoring partner has verified that there are no deforestation within concession area in 2021.	Invalid
27	524B-ME32	Bunga Group	No	Rapid Response 32	Mighty Earth	14/1/2021	Satellite imagery shows that between November 2019 and October 2020, a total of 255 hectares of forest were cleared in the Value Greenworld Sdn Bhd concession.	Value Greenworld Sdn Bhd	No	Deforestation	Mighty Earth Rapid Response Report 32 reports land clearing occurred on 2019 and 2020 with clearance location 5.073051, 102.022529. Based on our satellite partner using high resolution image of Google Earth, the reported land clearing area has been opened in 2007 and 2016 respectively. Upon engagement with direct supplier for the 2016 case, Bunga Group had only started the operations in Value Greenworld Sdn. Bhd. at the end of year 2016. The Group has no idea of the deforestation took place prior to the acquisition. Apart from that, Bunga Group released their Sustainability Policy on January 18th and has a moratorium in place.	Closed
28	403C-ME29	Capitol Group	No	Rapid Response 29	Mighty Earth	3/7/2020	286ha, February 24, 2020 - June 18, 2020	Medco Papua Hijau Selaras	No	Deforestation	As according to our direct supplier, a HCV-HCS has already been conducted by qualified assessor, where the assessment was finalised in February 2019. When the allegation of deforestation was brought to Medco Papua Hijau Selaras's (MPHS) attention in March 2020, the company has planned for a field verification to investigate the matter. However, due to the restrictive movement imposed by the government of Indonesia to curb the spread of covid-19, MPHS's key personnel was stranded at the estates and unable to proceed with the field investigation. When the situation became conducive for travelling in June 2020, MPHS has immediately conducted the field verification and the assessment report is currently underway. MPHS has committed to peer review and will publish its HCS/HCV report on the HCV Network website once it is ready. From September 2020 onwards, they have observed strict moratorium. Meanwhile, PT MPHS committed to rehabilitate the affected areas, as identified in the HCV and HCS assessment reports. Working together with Balai Pengawas Daerah Aliran Sungai (BPDAS) since November 2020, PT MPHS also committed to plant 30,000 trees as part of their rehabilitation plan. Still pending completion of HCSA peer review, estimated by Q2 2021. Sep-21: There were some delays in the finalisation of integrated reports due to worsening of COVID-19 pandemic, where it was finally been submitted to the HCVRN on 11 July 2021. In the meantime, they have also prepared management plans for HCV/HCS areas, therefore protecting these areas while preventing similar incidences from reoccurring. our direct supplier will continue to monitor and engage PT MPHS closely, while continuing to guide them through the peer review process as well as in developing a rehabilitation plan. Dec-21: No purchase reflected as of H1 2021 traceability data	No Purchase

63	108F	Felda	Yes, indirectly	RSPO's complaint case related to Kilang Sawit Serling	Internal monitoring	11/12/2018	Article by The Wall Street Journal, violation of No. Exploitation.	Group (Malaysia)	Yes, indirect supplier	Exploitation	Referring to Felda Group action plan, comparing September 30 2020 plan, to the recent progress report as of 31st March 2021, FGV has managed to implement 14 intended action items. Some of which include company staff training of the labor standards and supplier engagement to ensure the responsible hiring of workers in compliance with the labour standards. The Felda Group has also planned to strengthen their grievance mechanism and their commitment to fair recruitment practices, regularization and monitoring of undocumented migrant workers. In addition to the Action Plan 2020, in the second quarter of 2021, FLA will conduct an independent external assessment based on FLA's workplace CoC for the agriculture sector, these findings would be published by FLA in late 2021. For more information on FGV's latest 2021 action plan: https://www.fgvholdings.com/wp-content/uploads/2021/04/FLA-Assessment-Report-on-the-Implementation-of-FGV%E2%80%99s-Action-Plan-to-Enhance-Labour.pdf	Monitoring

75	140G-RAN8	Global Sawit Semesta	Yes, indirectly	Leuser Watch - the last of the Leuser lowlands	Rainforest Action Network	2/10/2019	Broker CV. Buana Indah buying from illegal FFB from Singkil Bengkulu	Global Sawit Semesta	Yes, indirect supplier	Illegal Sourcing	An action plan was developed between direct supplier and GSS. It includes mapping of high-risk areas, which is to be shared with all FFB suppliers, request all FFB suppliers to commit to sourcing only from non-protected areas, stop FFB purchase from suppliers without a signed commitment letter, suppliers should commit to sourcing from no exploitation, respecting land rights and document traceability of FFB suppliers shed. Action plan will be monitor by direct supplier and Fuji Oil. An NDPE policy has been signed and TTP at 100%.	Closed
76	141G-MB1	Golden Agri Resources	Yes, directly	Orangutan Habitat Loss and Palm Mills	Mongabay/ Maphubs	8/7/2019	Deforestation resulting in orangutan habitat loss	Paramitra Internusa Pratama	Yes, direct supplier	Deforestation	Paramitra Internusa Pratama operates Belian Mill and is our direct supplier's owned mill which fully procures from own estates. The areas of deforestation in the forest report are located well outside the boundaries of our direct supplier's concessions. https://goldenagri.com.sg/sustainability-dashboard/download-file/getfile/626 . Therefore, we will close this grievance.	Invalid
77	520G-TPOL1	Golden Agri Resources	Yes, directly	LABOUR RIGHTS VIOLATION IN THE GLOBAL SUPPLY CHAIN OF THE PALM OIL INDUSTRY	Transnational Palm Oil Labour Solidarity	20/12/2020	Workers' complaints: 1) employment relationship outsourced to the third party, 2) poor health and safety protection without proper and effective PPE, 3) wages paid below minimum wages, 4) no paid leaves, 5) prolonged casual status without being promoted to become permanent workers	Sawit Mas Sejahtera	Yes, direct supplier	Exploitation	Our direct supplier is mentioned because their mill PT SMS sources FFB from PT AKL (Sipef Group). SIPEF has been engaging with TPOLS since early this year regarding PT AKL. They have communicated to TPOLS the process they are following to ensure TPOLS/Mongabay concerns are properly addressed. Amongst other activities, the process includes having an expert third party investigate the issues raised and eventually a stakeholder meeting to which TPOLS will be invited. The case has been logged to SIPEF grievance Dashboard. See here https://www.sipef.com/hq/sustainability/grievances-dashboard/ . More importantly, SIPEF has also committed to a set of time-bound action plan. See here https://www.sipef.com/media/2356/more-information-on-this.pdf	Closed
78	142G-ME18	Golden Plantation TBK	No	Rapid Response 18	Mighty Earth	1/8/2019	between May 15, 2019 and July 10, 2019 a total of 9 hectares of forest were cleared in the PT Airlangga Sawit Jaya concession	Airlangga Sawit Jaya	No	Deforestation	Fuji has no purchase from Golden Plantation	No purchase
79	142G-ME18	Golden Plantation TBK	No	Rapid Response 18	Mighty Earth	1/8/2019	between May 15, 2019 and July 10, 2019 a total of 9 hectares of forest were cleared in the PT Airlangga Sawit Jaya concession	Airlangga Sawit Jaya	No	Deforestation	Fuji has no purchase from Golden Plantation	No purchase
80	144G-ME21	Golden Plantation TBK	No	Rapid Response 21	Mighty Earth	1/11/2019	between April 22, 2019 and September 23, 2019 a total of 3 hectares of forest (mineral soils) were cleared, 122 hectares of peat forest were cleared, and 30 hectares were prepared for clearance in the PT Mitra Jaya Agro Palm concession.	Mitra Jaya Agro Palm	No	Deforestation	Fuji has no purchase from Golden Plantation	No purchase
81	144G-ME21	Golden Plantation TBK	No	Rapid Response 21	Mighty Earth	1/11/2019	between April 22, 2019 and September 23, 2019 a total of 3 hectares of forest (mineral soils) were cleared, 122 hectares of peat forest were cleared, and 30 hectares were prepared for clearance in the PT Mitra Jaya Agro Palm concession.	Mitra Jaya Agro Palm	No	Deforestation	Fuji has no purchase from Golden Plantation	No purchase
82	150G-ME22	Goodhope	Yes, indirectly	Rapid Response 22	Mighty Earth	6/12/2019	between September 11, 2019 and November 2, 2019 a total of 39 hectares of forest were cleared in the PT Rim Capital concession	Rim Capital	No	Deforestation	As according to our direct supplier, one of the land clearance areas (-2.661, 112,231) is located outside of the concession. Goodhope's press release: https://www.goodhopeholdings.com/images/grievance/Goodhope_Response_to_Mighty_Earth_Report_22_and_23.pdf And the other location though is within the concession area of PT RIM Capital. However, the company has no intention or plan to acquire the land for two reasons. Firstly, the land owners are not interested to relinquish the land. Secondly, the company is not going to develop these particular lands due to peat soil. Goodhope has committed to NDPE policy since May 2017. As of 16 Mar 2020, Goodhope has submitted its latest version of concession map to RSPO ACOP for review and documentation. Meanwhile, Goodhope has been working with the local community and stakeholders to rehabilitate and restore the community-owned fire-affected land. Sep-21: Our Satellite monitoring partner also has verified there is no forest loss and / or peat land coversion detected during 2021.	Closed
83	154G-ME10	Gunas Group	Yes, indirectly	Rapid Response 10	Mighty Earth	29/11/2018	between August 12 and October 23, 2018 a total of 27 hectares offorest were cleared and 12 hectares of peat were developed in Area A of the PT Sumatera Jaya Agro Lestari concession. Also between September 16 and October 23, 2018 a total of 61 hectares of peat forest were developed in Area B of the PT Sumatera Jaya Agro Lestari concession	Sumatera Jaya Agro Lestari	Yes, indirect supplier	Deforestation	SIAL belongs to the Gunas Group, and not Incasi Raya. Our direct supplier upon received The Mighty Earth's report on land clearing activities at SIAL, have immediately investigate the case and discovered that SIAL has accidentally cleared the area due to operational oversight. SIAL has immediately ceased the land clearing and reiterated their commitment of moratorium. SIAL is expected to submit a recovery plan to commensurate with the scale of their non-compliant development. Our direct supplier is currently reviewing the supporting document and data of Land Use Change Analysis to confirm the total area subjected to the development of the recovery plan. In the meantime, direct supplier and fuji will continue to monitor SIAL's activities.	Closed
84	166H-MB1	Hartono Plantations/HPI Agro (Djarum)	Yes, indirectly	Orangutan Habitat Loss and Palm Mills	Mongabay/ Maphubs	8/7/2019	Deforestation resulting in orangutan habitat loss	Saban Sawit Sabur	No	Deforestation	In their letter to our direct supplier dated 29 May 2018, HPI management stated their commitment to NDPE as required by GSEP. They also in the letter mentioned a plan to join RSPO membership by end 2020. Our direct supplier is currently engaging HPI Agro to publicly announce NDPE policy for the whole group and provided supports in reviewing their NDPE policy draft. Their NDPE policy is estimated to publish by 1H2020. Our direct supplier also monitor their spatial area monthly and schedule to have a quarterly meeting with HPI management to discuss issues and progress related to their sustainable palm oil development. From the satellite map contained in the FR report, after direct supplier analyze the concession area of PT. SSS, it is confirm that there is a data inaccuracy where the area referred to in the attached satellite imagery map is not a concession area of PT. Saban Sawit Sabur, but is a map of PT. Gapura Alas Lestari, which does not have any connection / relationship with both PT. Saban Sawit Sabur or Agro HPI in terms either of shared ownership, management composition or involvement in our direct supplier supply chain. The progress of HPI action plan can be viewed here: https://bit.ly/3vuOJfa	Monitoring
85	161H-LAB1	Hartono Plantations/HPI Agro (Djarum)	Yes, indirectly	Case Report HPI Agro/Agro/ Djarum in West Kalimantan	Link-AR Borneo	16/11/2019	Link-AR Borneo - PT. GSK carried out deforestation throughout 2018 and 2019 covering an area of 37.91 Ha .	Gemilang Sawit Kencana	No	Deforestation	As according to our direct supplier's investigation report, the clearings were confirmed. The clearings were due to increasing the income of the plasma holders, however the clearings were not informed to the head office. Our direct supplier has proposed recommended actions to inform all operations on the moratorium and to conduct its own deforestation monitoring. Our direct supplier will convey the findings to Link-AR Borneo for feedbacks. Our direct supplier has published verification report and action plan on the HPI case raised by LB. The verification report can be viewed here: https://bit.ly/2ZrZt7f HPI's sustainability policy has been shared with supplier and in the midst of publishing it. The progress of HPI action plan can be viewed here: https://bit.ly/3vuOJfa	Monitoring

Updated: 20th December 2021

86	162H-LAB1	Hartono Plantations/HPI Agro (Djarum)	Yes, indirectly	Case Report HPI AgroAgro/ Djarum In West Kalimantan	Link-AR Borneo	16/11/2019	Link-AR Borneo - HGU Area PT. GKM caught fire in 2019. There were 30 hotspots (> 50% confidence) during July-September 2019.	Global Kalimantan Makmur	Yes, indirect supplier	Fire for land clearing	As according to our direct supplier's investigation report, the hotspots and the supposed burned areas, using desktop and ground verification, there was no fire threads and no burned areas. However, our direct supplier has proposed recommended action plans to HPI to conduct environmental monitoring, fire prevention and fire mitigation program. Our direct supplier will convey the findings to Link-AR Borneo for feedbacks. Our direct supplier has published verification report and action plan on the HPI case raised by LB. The verification report can be viewed here: https://bit.ly/2Zr2t17 . The progress of HPI action plan can be viewed here: https://bit.ly/3vu0Jfa	Monitoring
87	164H-LAB1	Hartono Plantations/HPI Agro (Djarum)	Yes, indirectly	Case Report HPI AgroAgro/ Djarum In West Kalimantan	Link-AR Borneo	16/11/2019	Link-AR Borneo - Exploitation of Plasma Workers and Farmers in PT Kapuas Rimba Sejahtera	Kapuas Rimba Sejahtera	No	Exploitation	As according to our direct supplier's investigation report, regarding the exploitation of workers, here are the summary points: 1. The situation of the casual worker is in compliance with the Decree of Manpower and Transmigration No. 100 of 2004 Chapter V article 10 set the provision regarding Perjanjian Harian Lepas. There is priority given to workers who wants to be permanent workers, however some workers have their own farms and prefer flexibility. 2. Direct supplier's team has checked worker's payment list and was in compliance with the government regulation. There was no salary deduction for maintenance worker from Rp. 90.000 to Rp. 50.000. 3. In KRS, an Organisational Structure of P2K3 has been formed and a K3 expert responsible for managing K3 management and must report regularly to the Manpower Office. HPI Agro had received ISPO certificate, in which all the OHS requirements had been complied within the regulation. 4. HPI provided PPE for harvesters: Helmet, gloves, boot, goggle, egrak glove and dodos glove. Every December, new PPE will be distributed. But if the equipment/PPE is in good condition, it will be use until it has been damaged. 5. All the Employees are registered with BPJS Ketenagakerjaan, for both permanent and KHL/casual workers. After checking on the employee salaries, no payment details for BPJS had been made. 6. Clean water provided by the company is only for the purpose of Bathing, Washing and Toilet (MCK). As for drinking water needs, employees buy refill gallons of water. There is a plan to development water treatment in the vicinity with a local university. 7. For special workers who do spraying and fertilizing/manuring (maintenance workers), a medical check-up will be held every year. Permanent workers with wife and up to 3 children will get to use the clinical service facilities. Whereas for casual workers (KHL), it will only be for himself/herself. 8. The pick-up point is deemed to be too far for the employees, therefore the employees prefer to travel using his own vehicle or by foot. After the pick-up service has been implemented only a few have utilized the service in the last 2 years, therefore the service has been removed. There is plan to reinstate the service. 9. The rinse houses are available for maintenance workers who need to do spraying / fertilizing. Based on direct supplier's visit, the rinse house is in good conditions, equipped with shower, wash area for the chemical PPE, and cupboard to store aprons. 10. In the Company Regulations (Peraturan Perusahaan) it is stated that female workers can take menstruation leave if menstruation is accompanied by illness. A sick letter from the clinic is required for menstruation leave. Our direct supplier will convey the findings to Link-AR Borneo for feedbacks including the plasma earnings discrepancies. Our direct supplier has published verification report and action plan on the HPI case raised by LB. The verification report can be viewed here: https://bit.ly/2Zr2t17 . The progress of HPI action plan can be viewed here: https://bit.ly/3vu0Jfa	Monitoring

195	425S-ME19	Sime Darby Plantation Berhad	Yes, directly	Rapid Response 19	Mighty Earth	10/9/2019	between February 19, 2019 and August 23, 2019 a total of 8 hectares were cleared in the Sime Darby Plantation Sdn Bhd (Derawan, SOU 33) concession	Sime Darby Plantation Sdn Bhd (Derawan, SOU 33)	Yes, indirect supplier	Deforestation	<p>According to our direct supplier, the clearing is not in Sime Darby plantation area. The clearing is about 100 meters away from the boundary of SD's operations. Third parties not associated with SD appear to be clearing for both oil palm and durian estates. http://www.simedarbyplantation.com/media/press-releases/statement-response-rapid-response-palm-oil-report-19-mighty-earth Sime Darby has already resolved this issue with Mighty Earth as according to their published grievance http://www.simedarbyplantation.com/sites/default/files/SDO%20Supplier%20Grievance%20Register%2006012020.pdf</p>	Invalid
196	423S-USCP1	Sime Darby Malaysia	Yes, directly	CBP Issues Withhold Release Order on Palm Oil Produced by Forced Labor in Malaysia	US Custom and Border Protection	30/12/2020	Exploitation	Sime Darby Plantation Berhad	Yes, indirect supplier	Exploitation	<p>Since appointing an expert stakeholder human rights assessment, Sime Darby has since embarked on various initiatives pertaining to human rights: one such initiative is Sime Darby plantation and Malaysia Airlines sending home 283 foreign workers from India, starting the pilot project to return existing workers due to covid-19 labour shortages and also appointing a human rights expert on 8th April 2021. https://www.simedarbyplantation.com/human-rights</p> <p>Sep-21: Sime Darby has dissolved its Expert stakeholder Human Rights assessment Commission to provide more time for an independent evaluation of its labour practices to be carried out. Sime Darby had hoped to complete the assessment by May 2021, but strict movement and travel restrictions imposed because of the COVID-19 pandemic had made it hard to finish its assessment. As soon as it is practicable, the evaluation will resume. Meanwhile, Mr. Andy Hall I will continue working with Sime Darby to review and improve the foreign worker recruitment processes. This work will involve collaborating in a programme aimed at creating a new standard for the ethical recruitment of foreign workers. Also Sime Darby will continue to work with impact and other key stakeholders to review its operations.</p>	Monitoring
197	430S-ME20	Sin Tek Huat (STH) Group	Yes, indirectly	Rapid Response 20	Mighty Earth	11/10/2019	between February 20, 2019 and August 30, 2019 a total of 2 hectares of forest were cleared in the PT Makmur Bersama Asia concession.	Makmur Bersama Asia	No	Deforestation	<p>Based on STH investigation, they found that the 2 ha of land clearing was located outside of PT MBA and conducted by local community who owns the land. Direct supplier has received a copy of clarification from head of village on this.</p>	Invalid

207	445T-ME15	Ta Ann Group	Yes, indirectly	Rapid Response 15	Mighty Earth	1/5/2019	between February 19, 2019 and May 7, 2019 a total of 15 hectares of forest were cleared in the Ladang Selezu Sdn Bhd concession	Ladang Selezu Sdn Bhd	No	Deforestation	Our direct supplier has initiated engagement with Ta Ann since May 2019 to seek clarifications on allegation of deforestation. Ta Ann has provided written commitment in adhering to the NDPE policy and shared their concession maps for further investigation. Moratorium has been put in place. A meeting was held on 21 June 2019 to discuss the issues and a follow up meeting took place on 12 July 2019 for further discussion. As part of the investigation, supplier's team has conducted a field assessment from 22-27 July to verify the allegation. The field assessment has verified that the deforestation happened outside Ladang Selezu's concession boundaries.	Invalid
208	445T-ME16	Ta Ann Group	Yes, indirectly	Rapid Response 16	Mighty Earth	8/6/2019	~25 ha April 19 - May 18, 2019	Ladang Selezu Sdn Bhd	No	Deforestation	Our direct supplier has initiated engagement with Ta Ann since May 2019 to seek clarifications on allegation of deforestation. Ta Ann has provided written commitment in adhering to the NDPE policy and shared their concession maps for further investigation. Moratorium has been put in place. A meeting was held on 21 June 2019 to discuss the issues and a follow up meeting took place on 12 July 2019 for further discussion. As part of the investigation, supplier's team has conducted a field assessment from 22-27 July to verify the allegation. The field assessment has verified that the deforestation happened outside Ladang Selezu's concession boundaries.	Invalid
209	509T-RAN16	Teupin Lada	Yes, indirectly	Fresh Evidence: Major Global Brands Refuse to Stop Sourcing Fire-Fueled Conflict Palm Oil, Despite Promises	Rainforest Action Network	20/8/2020	Alleged of sourcing from Indo Alam	Teupin Lada	Yes, indirect supplier	Illegal Sourcing	Prior to the publication of the RAN report on 20 August 2020, our direct supplier had already initiated engagement with PT Teupin Lada (TL) since 18th August 2020, and had detected the issue through its Leuser Supplier Reporting Tool (LSRT) programme. The meeting with TL on 25 August 2020, has confirmed that TL had started to procure from PT Indo Alam since Q1 2020. TL has agreed to cease sourcing from PT Indo Alam with immediate effect.	Closed
210	233L-ME14	TH Plantations Bhd	Yes, indirectly	Rapid Response 14	Mighty Earth	12/4/2019	between January 11, 2019 and March 6, 2019 a total of 161 hectares of peat forest were cleared and 465 hectares were prepared for clearance in the Hydroflow Sdn Bhd concession	Hydroflow Sdn Bhd	No	Deforestation	TH Plantations has verified the allegations and confirmed that the contended area is outside of Hydroflow's concession boundaries. To further validate their statement, TH Plantations has confirmed they have issued a stop-work order on Hydroflow since September 2018. Since then, no heavy machinery has been placed within the estates and no funds have been channelled to them for any further development.	Invalid
211	233L-ME27	TH Plantations Bhd	Yes, indirectly	Rapid Response 27	Mighty Earth	9/5/2020	March 16 - April 15 2020, 9.6ha	Hydroflow Sdn Bhd	No	Deforestation	As according to our direct supplier, the cleared area was not conducted by the company, it happened outside their concession boundary	Invalid
212	454T-ME15	TH Plantations Bhd	Yes, indirectly	Rapid Response 15	Mighty Earth	12/06/2019	between March 24, 2019 and May 10, 2019 a total of 22 hectares of forest were cleared in the Ladang Tabung Haji concession	Ladang Tabung Haji	No	Deforestation	Fuji Oil had engaged with our direct supplier. FUJI OIL is linked to TH Plantation/ Lembaga Tabung Haji. Our direct supplier has reached out to TH Plantations to seek for explanation for the allegation on Ladang Tabung Haji. The satellite image and land use maps are those of Ladang Sebauh and Ladang Semilajau, both of which were estates under the stable of Ladang Sawit Bintulu Sdn. Bhd., a joint venture company between the parent companies, Lembaga Tabung Haji and a local based company. TH Plantations was the managing agent for these estates, however Tabung Haji had disposed the said estates to a third party in 2002. Sep-21: Our satellite monitoring partner has verified that there are no further forest loss and / or peat land conversion detected during 2021. The forest loss areas linked to TH plantations Bhd in the ME report fall outside of currently known concessions in the database.	Invalid
213	456T-ME17	Tradewinds	Yes, indirectly	Rapid Response 17	Mighty Earth	1/7/2019	between February 20, 2019 and July 8, 2019 a total of 65 hectares of forest were cleared in the PT Kurun Sumber Rezeki concession	Kumpulan Kris Jati Sdn Bhd	No	Deforestation	CB Industrial product holding deforestation. It was reported by ME that PT Kurun Sumber Rezeki is a joint-venture between PT Jhonlin Agro Mandiri, Jhonlin Group (80%) and CB Industrial Product Holding Bhd, CBIP Group (20%) As Tradewinds is linked to CBIP via 2 JV companies namely Solar Green Sdn Bhd (where Tradewinds is reported to own 50% shares) and Kris Jati Sdn Bhd (where Tradewinds is reported to own 70% shares) In Jan-Jun'19, Mewah sourced CPO from three Tradewinds' palm oil mills located in Peninsular Malaysia and Sabah. The respond from Tradewind to our direct supplier on 2 Aug-19, confirming that, "Although CBIP holds 30% share in Kumpulan Kris Jati (KKJ), CBIP do not have management control over the operations of KKJ. At the same time, the company group that has management control of KKJ has no shareholdings in any of CBIP's oil palm operations under CBIP's management control. KKJ and CBIP does not share the same parent company, and therefore KKJ is not part of the same group as CBIP." No further evidence is presented to substantiate the linkage between Tradewinds or Kumpulan Kris Jati with PT Kurun Sumber Rezeki Sep-21: Our satellite monitoring partner has verified that there is no forest loss and / or peat land conversion detected during 2021.	Closed
214	457T-ME18	Tradewinds	Yes, indirectly	Rapid Response 18	Mighty Earth	12/8/2019	between November 22, 2018 and July 9, 2019 a total of 94 hectares of peat forest were developed in the Trans Kenyalang Sdn Bhd concession	Trans Kenyalang Sdn Bhd	No	Deforestation	Our direct supplier engaged Tradewinds representative and they confirmed that the alleged area is located outside of their estates concession.	Invalid
215	462T-ME12	Triputra Agro Persada	Yes, indirectly	Rapid Response 12	Mighty Earth	30/1/2019	between November 23, 2018 and January 12, 2019, a total of 56 hectares of forest were cleared in the PT Dwiwira Lestari Jaya concession	Dwiwira Lestari Jaya	No	Deforestation	Our direct supplier met with TAP management to further discuss on the issue. TAP clarified that they already stop the land clearing. However, they reiterated that the development of the land was based on the HCS report conducted by the independent assessor using an old version of toolkit. In recognizing the concerns raised by all parties, TAP is in the process of submitting the HCS to HCSA Steering Committee for peer review. TAP is committed to follow recommendations given, if any, by HCSA Steering Committee once the peer review completed. At the same time, they will also conduct internal assessment to re-verify the HCS areas in PT DLJ THCV and HCS assessment has already been conducted at PT Dwiwira Lestari Jaya in 2014 and 2016, respectively and there were no land clearing activities at the HCV/HCS area. Sep-21: Triputra's team has also attended trainings organised by the HCSA steering group where Triputra has become a Registered Practitioner Organisation and have a few registered individuals within organisation. Given the publication of TAP's NDPE commitment, the completion of PT DLJ peer review, the satisfactory clarification for the allegations, and no more deforestation indication detected, Fuji and our direct suppliers decided to close the case.	Closed

231	28A-MB1	Astra Agro Lestari	Yes, indirectly	Top brands failing to spot rights abuses on Indonesian Oil palm plantations	Mongabay/ Maphubs	15/7/2021	The report found out that local and Indigenous communities living within and around these 10 plantations continue to have their human rights violated by the operations of these plantations, which are the declared holdings of the Astra Agro Lestari	Sari Aditya Loka Pancasurya Agrindo Kresna Duta Agroindo Harapan Sawit Lestari Hardaya Inti Plantations	Yes, indirect supplier	Violation of human rights to community lands	<p>PT SAL: our direct supplier whom is linked to PT SAL has contacted AAL for feedback on Jun-21. AAL sent a response to them including its efforts in dealing with the allegations. See AAL's response here https://bit.ly/2U81GRU. In AAL Response letter, it stated that AAL has provided assistance in form of education, healthcare, and economic opportunities to the orang Rimba dating back to 2001 so as to improve their quality of life. The incident also has taken place more than a decade before PT SAL has been founded. AAL is also committed to a NDPE policy and publishes its sustainability report both annually and quarterly which is publicly available.</p> <p>PT HSL: our direct supplier has also contacted their supplier whom they are linked to for feedback on the allegations against PT HSL. Here is their response https://bit.ly/3aaudX. The case with Asam Besar Village was in 2018 and has been settled, with HSL committed to carrying out CSR program for the villagers (which is per agreed by the Asam Besar Village). Another case with KKPA and Plasma Schemes: HSL is fully committed to addressing this matter and continuous to work with relevant stakeholders to develop resolutions in alignment with our policies and NDPE commitment, while respecting the local communities rights and expectations.</p> <p>These buying and selling activities conducted by the local communities of this case are outside of the management authority of PT HSL. This situation is further complicated as there is no more land fit for clearance after Cargill endorsed NDPE commitment in July 2014, as most of the local communities and enclave land area are falling under HCV and or HCS criteria.</p> <p>PT KDA: has also released a statement regarding the allegations made against its subsidiaries, KDA. The KDA case that is referred in the report has been resolved and closed in 2016. with FPP falling to acknowledge the closure of the cases. More details can be found here: https://www.goldenagri.com.sg/wp-content/uploads/2021/01/GAR-REPORT-ON-SOMO-CASES.pdf. KDA has been committing to the audits to ensure its operations is in line with the operating requirements. With KDA achieving "blue" proper rating every year since 2013, in compliance with national regulatory standards regards to pollution control. Regarding the price, the final price is communicated openly to the farmer groups and agents. our direct supplier's subsidiaries in Jambi has been proactively carrying out engagement and targeted CSR programmes with indigenous people, through educational programmes and KDA supporting independent small holders replanting ageing plantations with input materials, infrastructure and access to funding from the BPDPKS.</p> <p>PT PA: Our direct supplier has also released a statement regarding the allegations against its subsidiaries, PT, Pancasurya Agrindo (PSA). In its statement, it reinforced that the allegations made against its subsidiaries was in the past, and there are no land expropriation nor land grabbing from the villagers. Also PT PSA has also made significant amount of effort to form constructive relationships through community development programmes and educational programmes and reinforced that their relationships with the local communities have been generally good.</p>	Monitoring
233	564I-FIN1	IOI Group	Yes, directly	https://finnwatch.org/en/publications/migrant-workers-rights-in-oil-palm-estates-in-malaysia	Finnwatch	6/7/2021	<p>Email was sent to IOI by a grievance raiser highlighting several allegations involving 5 workers working on IOI's Mekassar Estate. The allegations consisted of:</p> <ol style="list-style-type: none"> Misreatment from estate supervisor Inconsistency in issuance of PPE Not allowing to speak to auditors Dissatisfaction regarding housing facilities disagreement of wages Alleged payment of recruitment fees. 	Mekassar Estate	No	Labour and human rights violation	<p>Following the allegations made by Finnwatch, IOI has reached out to the respective parties and conducted a formal investigation to the matter. Some of these actions include:</p> <ol style="list-style-type: none"> Investigation into the mistreatment of the labour workers - of which IOI has taken disciplinary action against the supervisor and a formal apology is issued to the workers. Investigation into lack of issuance of PPE - of which IOI has found to be well documented and issued regularly in accordance with IOI's operating procedure. Investigation into the illegal fees collected by a named person - to which IOI has suspended the recruitment agency and had reported the findings to the authority and the Indian Embassy for further formal investigation. Investigation into the living situation of the labour workers - of which IOI has action plans to conduct renovation, new guidelines for providing basic amenities to workers at all estates and formed guidelines on "worker's work verification" to enable to verify their working hours. <p>other than investigations conducted by IOI. as of July 2021, IOI has implemented several action plans and improvement programmes to tackle labour violations. This can be seen in the response letter by IOI on Finnwatch report. https://www.ioigroup.com/Content/5/PDF/Response%20to%20Up%20Actions.pdf. Increase the regular monitoring by sustainability and human resource personnel from IOI HQ to bring out awareness. 3. IOI also states that they will conduct a direct video interview between IOI personnel with potential workers if needed to avoid any form of exploitation or forced labour etc.</p>	Monitoring
234	541A-ME33	Asam Jawa/ Musirawas	Yes, indirect	Rapid Response Report 33	Mighty Earth	1/4/2021	Satellite imagery shows that between October 2020 and March 2021, a total of 52 hectares of forest were cleared in the PT Uni Primacom concession	Uni Primacom	No	Deforestation	Fuji has engaged our direct supplier on this case and based on the RSPO group ownership, review of the ownership documentation and shareholdings found that PT Uni Primacom is not related at group level to Asam Jawa. However, Fuji is still the midst of investigating the group ownership dispute and in the meantime, we will continue monitoring this grievance closely.	Monitoring

Based on the field ground-truth, the area belongs to local community and previously was rubber plantation. https://www.apicalgroup.com/wp-content/uploads/2021/07/rapid-response-34_bbb-june-2021.pdf Fuji is currently monitoring this case</p>	Monitoring
240	545W-ME34	Wings Agro	No	Rapid Response Report 34	Mighty Earth	1/6/2021	Satellite imagery shows that between November 2020 and April 2021, a total of 34 hectares of forest were cleared in the PT Gawi Makmur Kalimantan (LU AMS) concession.	Gawi Makmur Kalimantan	Yes, indirect	Deforestation	Our direct supplier is no longer sourcing from PT GWK or sourcing from Wings Agro Dec-21: No purchase data as of H1 2021 traceability data	No purchase
241	301NonG-RAN4	Non-Group	No	RAN: Leuser Rainforest logging continues amidst growing Global Climate Emergency	Rainforest Action Network	8/8/2021	PT Nia Yulided Bersaudara destroying lowland rainforests in the Leuser Ecosystem	Nia Yulided	No	Deforestation	According to our direct supplier, PT NYB is not inside their supply chain	No purchase
242	301NonG-RAN4	Non-Group	No	RAN: Indigenous Community Demands, Brands and Banks stop business with Rogue Palm Oil Company	Rainforest Action Network	8/8/2021	Illegal logging by PT TN and clearance of customary land of the Gayo people for palm oil development	Tegas Nusantara	No	Deforestation, FPIC	According to our direct supplier, PT TN is not inside their supply chain	No purchase
243	572R-GW1	Rimbunan Hijau Group	Yes, indirectly (palm)	The true price of palm oil	Global Witness	8/8/2021	Clearing of Indigenous communities lands, unsafe working conditions and lack of proper safety equipment	Mamusi	No	Deforestation & Human Rights Violation	Our direct supplier has approached RH group on the allegations however, RH rebutted the allegations raised by GW and provided all the relevant documents such as the field visit report by the independent consultant and evidence of engagements between RH and GW since 2017, landowner consent forms to ascertain FPIC, voluntarily written statements by a landowner; correspondence between Gifford and Royal Papua New Guinea Constabulary; Board meeting minutes by landowner companies; as well as a mediated agreement between Gifford and a landowner company issued by the PNG national court. etc. Supporting documents shared by RH to our direct supplier has also clarified the issues raised by GW except on the matter of Personal Protective Equipment (PPE) provision to its workers, which still warrants further investigation and engagement with RH in order to close the issue. our direct suppliers are currently monitoring this issue to ensure continued compliance to our NDPE policy. They have also published their grievance online. For more information: https://www.wilmar-international.com/sustainability/grievance-procedure	Monitoring
244	573T-OTH1	Tasma Puja	Yes, indirect	Collaborative team of Tempo, Mongabay Indonesia, Betahita, and Auriga Nusantara	Others	12/8/2021	<p>Suspected of developing plantations in the areas of limited production forest (HPT) and convertible production forest (HPK)</p> <p>Suspected of accommodating, purchasing, processing, selling, and marketing oil palm products from illegally-grown plantations in Bukit Betabuh protected forest in Indragiri Hulu Regency, Riau</p>	Batang Cenaku	Yes, indirect	Deforestation, Illegal Sourcing	<p>As the whole report has yet to be published, Fuji has engaged our direct suppliers with the initial information provided to us first. According to our direct supplier, the reports seems to be targeting the overlapping land matters in Indonesia which involves the wider palm oil industry in Indonesia, similar to those raised by Greenpeace in March 2021 to which our direct supplier replied as co-signatories in a joint response by the Indonesian Grower Caucus and supported by the Indonesian Palm Oil Association (GAPKI). Refer here: https://www.indonesiapalmoilfacts.com/wp-content/uploads/2021/03/20210310-Growers-Responses-to-GP-Letter.pdf.</p> <p>Based on their preliminary investigation on the draft report, the companies named in the report have not had land clearing in forest areas as per the definition of HCS-HCV. However, our direct supplier will continue to engage with our suppliers to carry out further investigation and should violation of NDPE is detected and register the case on our direct supplier's grievance listing</p> <p>As for the suspicion for accommodating, purchasing, processing, selling and marketing illegally grown plantations, PT TP has informed our direct supplier that surveys are carried out as a due diligence against each of their new FFB suppliers to make sure that the farm is not located in the forest zone. However, as this draft report has has yet to be published, there is not sufficient evidence to support this allegation.</p>	Monitoring
245	551B-ME35	Bukit Asam	Yes, indirect	Mighty Earth 35	Mighty Earth	18/8/2021	Satellite imagery shows that between June August 2020 and June 2021, a total of 16 hectares of forest were cleared in the PT Bumi Sawindo Permai concession.	Bumi Sawindo Permai	Yes, indirect	Deforestation	According to our direct supplier, the alleged area was planted with other crops prior converting to palm. Supporting documents such as field verification report and photos had been submitted to prove their claim, where it was found that the vegetation on the ground consists of mixture of other crops, which is mostly rubber and coffee. PT BWP has also committed to a moratorium.	Moratorium

Fuji Oil Group Grievance List

246	3945-ME36	Samling Group	No	Mighty Earth 36	Mighty Earth	12/10/2021	Satellite imagery (see below) shows that between the 3-month period June-August 2020 and August 2021 a total of 417 hectares of forest was cleared in the Samling LPF 0008 Merudiand Batu Belah concession.	LPF 008 Merudi and Batu Belah	No	Deforestation	While engaging with our direct suppliers, they have conveyed that the alleged deforestations are replanting of trees in timber concessions. There is no palm being planted. However, Fuji will require direct suppliers to provide evidence to support Samling's cases. Therefore, Fuji has engaged Samling with one of our direct suppliers to seek clarifications. Overall, the engagement with Samling was positive. However, the NDPE commitments and moratorium, recovery plan progresses would only apply to Glenealy and that no evidence were given to dispute that the areas weren't clearing of primary forest. Coupled with Fuji Oil has received unanimous suspension or stop purchase announcements from all our direct suppliers in regard to Samling Group. Given this situation, Fuji Oil has decided to temporarily suspend Samling Group until group wide NDPE commitments and progresses are made. Nonetheless, Fuji will continue to work with direct suppliers in monitoring Samling's progresses and their re-entry into the supply chain.	Suspended
247	549J-ME35	Jhonlin Group (2nd Deforester as according to CRR)	No	Mighty Earth 35	Mighty Earth	18/8/2021	Satellite imagery shows that between June August 2020 and December 2020, a total of 38 hectares of forest were cleared in the PT Jhonlin Agro Lestari concession. (Imagery: 2020)	Jhonlin Agro Lestari	No	Deforestation	Dec-21: No purchase reflected as of H1 2021 traceability data	No Purchase
248	553S-ME35	Shin Yang Group / Sarawak Oil Palms Bhd	Yes, indirect	Mighty Earth 35	Mighty Earth	18/8/2021	Satellite imagery shows that between December 2019/May 2020 and June 2021, a total of ~423 hectares of forest were cleared in the Shin Yang LPF 0019 concession. Concession	LPF 0019	No	Deforestation	<p>Sarawak Oil Palm has been engaging with Shin Yang Group with regards to its deforestation allegation.</p> <p>2. Shin Yang Group had signed SOPB Supplier code of Conduct (SCOC) and pledged to a moratorium by 31st Dec 2020.</p> <p>3. The signed declaration as prescribed by SOPB's SCOC is an acknowledgement and a pledge by Shin Yang subsidiaries to comply with SOPB's SCOC and Oil Palms Sustainability Policy (OPSP). Please refer to the signed SCOC as attached.</p> <p>*A copy of the OPSP is available at this link: http://www.sop.com.my/sustainability/sustainability_policies_oilpalm.php</p> <p>4. The absolute compliance to SOPB's SCOC and OPSP is compulsory for Shin Yang Group by 31 December 2020.</p> <p>5. Moving forward, SOPB is taking initiative to ensure commitment by Shin Yang:</p> <p>a. Shin Yang subsidiaries are required to submit a "Supplier Assessment Form". This is to allow analysis of present practices and gaps in complying to the SCOC and OPSP.</p> <p>b. SOPB maintains continuous engagement with them including the confirmation of their MSPO certification validity.</p> <p>c. SOPB monitors the FFB volume delivered against planted area as specified on their MPOB Licence.</p> <p>Dec-21: Our direct suppliers are engaging with SOP on the alleged land clearings.</p>	Monitoring
249	552T-ME35	Ta Ann Group	Yes, indirect	Mighty Earth 35	Mighty Earth	18/8/2021	Satellite imagery shows that between May 2021 and June 2021, a total of 10 hectares of forest were cleared in the Ta Ann LPF 0010 concession.	LPF 0010	No	Deforestation	We have engaged our direct supplier and they are indirectly linked to LPF 0010. They are currently engaging their supplier for a more concrete response.	Monitoring
250	542A-ME36	Jardines / Astra international Tbk	Yes, indirectly (palm)	Mighty Earth 36	Mighty Earth	18/8/2021	Between June 6 and September 28, 2021, there were ~8 hectares of forest loss within the Martabe Mine area of PT Agincourt Resources Tbk	Agincourt Resources Tbk	No	Deforestation	Fuji has engaged our direct suppliers on this gold mining case and the responses from our direct suppliers are consistent in which PT Astra Agro Lestari and PT Agincourt Resources are two different companies operating within two different kinds of industries. Although they are under the same holding group, but they are under different legal entities. Each legal entity maintains their own independence in running its operations in accordance with the applicable Law of Indonesia No. 20/2007 concerning Limited Liability Company. Due to this, the leverage on the gold mining company agincourt resources is limited.	Monitoring
251	576Y-ME36	Yayasan Sabah	No	Mighty Earth 36	Mighty Earth	12/10/2021	Satellite imagery (see below) shows that between Nov 2021 and Aug 2021 a total of 91 hectares of forest was cleared in the Innoprise Plantation concession.	Innoprise Plantations Bhd	Yes, indirect	Deforestation	Through our direct supplier's investigation which includes document review, field verification on IPB concession maps and photo, they have concluded that the land development is not related to oil palm operation. The activities were related to tree planting mainly laran. Fuji is closely monitoring the case	Monitoring
252	594M-ME37	Musim Mas	Yes, directly	Mighty Earth 37	Mighty Earth	7/12/2021	Satellite imagery (see below) shows that between May and July 2021 a total of 6.6 hectares of forest (HCS) was cleared in the PT Multipersada Gatramegah concession	Multipersada Gatramegah	Yes, indirect	Deforestation	<p>We have engaged our direct supplier and they have said that the area in question is neither in HCV or HCS area. This area has been assessed before and covered under the following reports:</p> <p>a) HCV Report of PT Harisa Agro Lestari (PT Hariso Legra Astari, Kabupaten Barito Utara, Indonesia - HCV (hcvnetwork.org)) that has obtained satisfactory status (note: the area was part of PT Harisa Agro Lestari, which PT MPG officially acquired on 1st April 2018);</p> <p>b) HCS Report of PT Multipersada Gatramegah in 2018 that has covered the area in question (HCSARE1-1.pdf (highcarbonstock.org)) which has completed HCSA review process (HCSAPE1-3.pdf (highcarbonstock.org));</p> <p>c) This area has undergone the RSPO NPP process (PT Harisa Agro Lestari RSPO - Roundtable on Sustainable Palm Oil).</p> <p>All reports are published and can be easily accessed on HCVRN, HCSA, and RSPO websites, respectively. The October 2020 Public Summary referred in the allegations was not for this area but an extension of PT Multipersada Gatramegah.</p> <p>Our direct supplier has also sent these to Mighty Earth for clarification.</p>	Monitoring
253	584D-ME37	Dharma Satya Nusantara Tbk	Yes, indirect	Mighty Earth 37	Mighty Earth	7/12/2021	Satellite imagery (see below) shows that between May and Sept 2021 a total of 8.5 hectares of forest (HCS) was cleared in the PT Kencana Alam Permai concession	Kencana Alam Permai	No	Deforestation	<p>Our direct supplier has engaged with DSN and they have confirmed that they are no longer carried out new land development since 2015. NDPE has been officially issued since Mar 2020. (Addition info: DSN is also an RSPO member). DSN's official response to GAR on the allegation against PT KAP can be seen here https://bit.ly/3DFT3uY.</p> <p>• On the deforestation allegation, DSN the land clearance at PT KAP was carried out by local community for farming / paddy field in the area that is not yet under PT KAP's control. DSN's field investigation has verified that the clearing activities were conducted by five individuals in Desa Sungai Buluh. See photos and verification report here https://bit.ly/3DHASUJ</p> <p>• PT KAP's team have also carried out a joint verification visit at the location with head of the village (Desa Sungai Buluh) – as an independent observer – and it has been verified that the land clearance was conducted by the said five individuals above. See here https://bit.ly/3dG574N</p> <p>• DSN understands that this land clearing by the community is aimed at fulfilling their daily needs/livelihood. Social issue. Given that, DSN will work together with the community to seek the best solution/ agreement and DSN will keep DSN's partners/stakeholders updated.</p>	Monitoring
